

## Shake That And Party!

If you like your Cosmopolitans sexy, come and try a **Lucky Voice Cocktail-Making Masterclass!**

There's more to creating a delicious cocktail than just pouring a few spirits into a glass and giving it a stir. Mixology is an art: get it right and your friends will feel like they're floating on a **champagne supernova** after tasting your sumptuous concoction.

That's where a **Lucky Voice Cocktail-Making Masterclass** comes in.

Your group of aspiring glass-shakers will be hosted by an **expert mixologist** who will brief you on the day's activities before treating you to one of our favourite cocktails and splitting you into two teams.

Now is the time to watch carefully and take notes! **Round 1** will see your bartender demonstrate how to create one of our delectable cocktails before inviting a member of each team to come forward and race against each other to recreate it. Our expert will mark their efforts and award points to each team.

Three different drinks will be made, including a **Mojito** and the world-famous **Cosmopolitan**, meaning you'll get a taste of some basic bartending techniques such as layering shots, muddling, shaking and straining. After each race team members will get a chance to catch their breath – and enjoy the cocktails they created, of course.

**Round 2** will find team members taking their place behind the bar and performing a couple of flair manoeuvres, such as the **Roll Pour** and the **Behind-The-Head Switch**. Marks will be awarded based on ability and added to the team scores.

**Round 3** is the opportunity for you to use the techniques you have learnt from the previous rounds. The teams are asked to choose **two mystery ingredients** from a secret selection, before creating a cocktail using their mystery ingredients and the range of spirits and liqueurs on show.

You'll get time to test your creations before presenting the perfected cocktail to the rest of the party. Marks will be given on taste, use of ingredients, procedure and the presentation of the cocktail.

The event will end with a mystery prize being awarded to the best team based on the marks given for each section!
